

Technical Note no. : 0901
Date : 2009-01-23
Instrument : OtoAccess ver. 1.01
Subject : Installation fails if Clock is not set

SQL Server fails to complete installation if the Clock on the computer is not set

The installation performs a check on the current date to validate the installation.
The SQL Agent will not start and prompts for a Retry.

To continue:

Set the computer Clock and click Retry.
