

Interacoustics 50 years

50 years of leading diagnostic solutions

2017

2013

We introduce the revolutionary wideband tympanometry for our Titan.

2003

We present our state-of-the-art ABR system Eclipse.

1994

We introduce a new clinical audiometer AC40 building on our long tradition of audiometry.

1988

We launch our first hearing aid fitting equipment, MS20.

1974

The first impedance audiometer, AZ2 is developed and introduced.

1967

Interacoustics is founded in Assens by Michael Davis and Pierre Honoré selling deaf school equipment.
