**To whom it may concern**

Interacoustics services devices 7 years after the device is end of life. The AT235 blackline device was sold by Interacoustics A/S until 2016.

As of June 2023, 7 years have passed since the end of life of the AT235 blackline and its accessories. This means spare parts are no longer available for the service of the device.

Kind regards

Lillian Bjørn Nielsen
